HOW TO UPDATE THE DATABASE

 Scan the barcode 10 cm away from the red light

Switch the machine ON and wait for the home screen:

Insert the USB flash drive, with the Database file, into the slot on the front of the machine, as shown in the following photo:

Press "UPDATE" button and this list will appear:

AVAILABLE UPDATE(S):		
FIRMWARE		
SOFTWARE		
O TAG DATABASE		
PREVIEW IMAGES		
● FONT		
LOGO		
SCREENSAVER		
	Proceed with updates	7

The loading process will take around 3 minutes.

At the end, the home screen will appear again.

Remove the USB flash drive.

This process is now finished.
